

Ms.Prachi Madane

Full Stack Developer | MERN Stack Developer | AI/ML Enthusiast

Vasai,Palghar | +91 8669166390 | prachimadane2004@gmail.com | [Github](#) | [LinkedIn](#)

EDUCATION

- **Vidyavardhini's College of Engineering and Technology** 2022 – 2026
Bachelor of Engineering in Computer Engineering - CGPA : 7.76
- **Annasaheb Vartak College, Vasai** 2020 – 2022
HSC - Science(Computer Science) - 82.33%
- **Holy Family Convent High School , Vasai** 2019 – 2020
SSC - 90.80%

SKILLS

- **Languages:** Python, SQL , JavaScript
- **Frontend:** React.js, HTML5, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, JSON
- **AI-Assisted Development:** ChatGPT, Claude, Gemini, Lovable
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman (API Testing), VS Code, MongoDB Atlas, AWS Fundamentals

PROJECTS

MediLink – Medical Appointment and Health Record System

- Developed and deployed a full-stack healthcare platform featuring role-based dashboards, appointment scheduling, digital prescriptions, and medical record management.
- Built and integrated 10+ REST APIs with JWT authentication, enabling secure access control and efficient data management.
- Implemented OCR-powered document digitization using Tesseract.js and AI chatbot functionality using Gemini API to enhance user experience.
- Created interactive health analytics dashboards and optimized backend workflows using MongoDB, Express.js, and Node.js.
- Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, JWT, Postman

HelloWorld – Interactive Language Learning Platform

- Developed a full-stack language learning platform featuring student and teacher dashboards, quiz management, progress tracking, and role-based access control.
- Implemented gamification features including XP, badges, and leaderboards to enhance user engagement and learning motivation.
- Designed and integrated secure RESTful APIs and JWT-based authentication, enabling scalable content management and real-time user interactions.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

NeoDetect: Real-Time Multimodal Machine Learning for Neonatal Pain Detection

IEEE ICSSAS 2026 Publication

- Processed and analyzed neonatal physiological signal data (HR, SpO₂, RR), performing feature extraction and preparing datasets for machine learning models.
- Trained and evaluated pain detection models using XGBoost and Random Forest to classify neonatal pain levels from biomedical data.
- Developed a MERN-based web application with secure user authentication, real-time prediction display, confidence score visualization, and centralized management of analysis results.
- Co-authored and published an IEEE conference paper at the 4th International Conference on Self Sustainable Artificial Intelligence Systems (ICSSAS 2026) on real-time neonatal pain detection using multimodal machine learning.
- Tech Stack: MongoDB, Express.js, React.js, Node.js, Python, XGBoost, Random Forest

INTERNSHIP

Elevate Labs | Web Development Internship (Virtual)

Sep 2025 - Nov 2025

- Developed a full-stack budget planner using the MERN stack with responsive user interfaces and secure RESTful APIs for expense and budget management.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

CERTIFICATIONS

- *SQL and Relational Databases 101 by IBM Developer Skills Network*
- *MERN Stack Development Certification Program offered by edba academy.*
